Keith Ewart Photograph Collection. - MG 259. - accession 2006-112. - nd, 1966-2005. - 549 photographs.

This accession includes images Keith Ewart has taken or received of structural landmarks, particularly railway stations, in Ontario, Quebec, the Atlantic provinces, and the United States. The accession has been organized by binder. The first binder contains images taken by others and given to Ewart; the remaining three binders are images taken by Ewart.

Within the finding aid lists, only CPR and CN railway stations have been identified; other lines, such as the Toronto, Hamilton and Buffalo Railway, the C & O, etc., are identified in the photograph captions in the binders. These captions also provide information on whether or not the building remains on site or has been relocated or dismantled.
