Arrangement: Organized into three series:

- A. Reports
- B. Field Notes
- C. Maps

Provenance: Byers, Alfred Roddick, 1911-1992 (Professor of Geology)

Subjects: Dahlstrom, C.D.A diamond drilling Acidic volcanics Hornblende Gneisses geology

Restrictions: There are no restrictions on access.

Box 1

A. Reports.

1. Amisk - Wildnest Lakes Area - Final Report. - nd.
Pages 1-15 missing.
2. Geology and mineral deposits of the Amisk-Wildnest Lakes Area Saskatchewan. - nd.
By A.R. Byers and C.D.A. Dalstrom.
3. Report on diamond drilling Annabel concession, Annabel Lake Saskatchewan. -1953.
Report and maps.
4. Assessment Work - Flin Flon Area. - [ca. 1954].
5. Preliminary report on the Geology of the Waddy Lake Area. - 1946-1949. - 2 folders.
Report and maps.

B. Field Notes.

1. Petrographic descriptions. - 1948-1949.
Mainly Neagle, Face, Errington, Amisk, Pillow lakes area and Missi Island.
2. Map and slide list. - nd.
Just the list.

Box 2

Folder 19-63

3. Working files. - nd. - 63 folders.

C. Maps.

1. Diamond drilling. - nd.
Mosher, Birch and Wildnest Lakes.
2. Amisk Lake. - nd.
3. Black Lake. - nd.
